

Perfect as a storage and transport solution to keep your commodities safe anywhere, anytime!

GRAINPRO® COCOON CARGO™

Features & Advantages

- Preserves the quality (aroma, freshness, color) of the stored products
- Ultra-Hermetic and ensure secure storage of dry agricultural commodities
- Ideal fumigation chamber for infested crops before shipment/on arrival
- "Green" technology ideal for organic storage and/or fumigation using CO₂
- Facilitates temporary storage of goods at departure or destination ports
- Applicable for goods in Big Bags and smaller bags with/without pallets
- Minimizes condensation, inhibits/ control mold growth and infestation

The GrainPro® Cocoon Cargo™ is designed to address the growing market demand of transporting agricultural commodities in Big Bags (officially known as Flexible Intermediate Bulk Container or FIBC; also called “big bags”). Commodities are often infested before loading into the container or are found to be infested upon arrival at destination ports even if they were fumigated with phosphine prior to loading into containers.

The GrainPro® Cocoon Cargo™ zipper is located near the ground for ease of bulk-handling with forklifts. A sturdy and durable 1250 g/m² PVC enables outdoor storage and can handle extreme pressure. The GrainPro® Cocoon Cargo™ is equipped with a CO₂ inlet and air outlet port, making it an ideal gas-tight fumigation chamber.

APPROXIMATE CAPACITY

Dimensions (L x W), cm (inch)

640 x 285 x 235 (252 x 112 x 93)

FIBC

10 Bags (1,000–1500kg /bag)

20 Bags (700–1000kg /bag)

Disclaimer: The approximate capacity provided above is based upon our computation. Capacity variance based on actual commodity stored will apply.
